

DH Govt. Medical College

The 'Crown' of the district

South 24 Parganas;

Diamond Harbour Government

Medical college possesses.

The people are so lucky

To have this college;

No need to go to Kolkata,

At the very late age.

So many colleges are built up

In the West Bengal state,

But hardly touches the beauty

And position of it her estate!

The holy river Ganges (Hoogly)

Flows silently in front of it;

All the pollutions here,

Hardly touch beat.

Can see the large ships,

And steamers to float;

Allays all darks from the mind

The panoramic view like blot!

Near to Sunderban you 've scope

To see tigers and deers;

Book the ticket, the mind

Would be full of cheers!

You can travel the holy place (Gangasagar),

Great Kapil Muni's temple;
Sixty Km away from the college,
No need to sphere time ample!
Within the same distance
You can travel the Bakkhali beach!
Almost alternative to Digha,
Bears all beauty to reach.
It would be incomplete,
If we don't say her own beauty;
Well planned by engineers,
DME, Special Secretary really sweetly!
So many facilities provided
By the Govt. including RT-PCR;
We 've completed two and half lakhs tests (COVID),
In last one year (2020-;21).
Who will say she still child now
The people don't know the built how?
Only the lucky faculties realize,
The devotion of beloved Principal now!
At first we used to sit
At 3rd floor of Super Speciality hospital;
Built by expert Civil Department.
MSVP, and our dynamic Principal!
Though we're passing through a crisis period
The pandemic Chinese 'COVID,'
We almost defeated the 'Devil',

By continuous vaccination to stop it!
We are really glad to see
For providing immunization programme;
With the help of Prof Taraphder's Dept
Community Medicine not it only some!
The college providing 24 hours
CT Scan and ultrasonogram;
Successfully operated 'joint replacement',
Including 'squint' programme!
We 're proud to have our
So much expert faculty;
People are astonished to see
Their skill and beauty!
We 've a nice lake in front
With full of fish in water and plenty cranes over trees.
You can enjoy fishing in own lake
And river with sound of honey bees!
Faculty and our beloved Principal
Are always by the side of the disaster;
'Um Fun', 'Yaas', 'flood' couldn't make them alone,
Had relief by us became superstar!
Unfortunately we lost last year
Our very active friend 'Souvik Sammal';
Ophthalmologist, musician, photographer
And very loving, cheerful and simple!
Last but not the least we're very proud

To have our captain Prof. Utpal Dawnn;
Really he is always sympathetic and devoted
To guide us and providing leadership like 'Don"!
We're going to achieve here
Oxygen plant and Nursing college very soon;
Then we will be really able
To see her beauty's 'full moon'!
The students of MBBS, DMLT
And other paramedicals are also very happy;
To have admission in such a nice college,
And loving teachers are really lucky!
Going to achieve very soon here
One of the best Department Microbiology;
Not in the state but in the country
Not the situation of apology!
Because of having Viral Research
And Development Laboratoy (VRDL),
Along with RT-PCR Principal Sir,
DME, DHS, ICMR providing Genome Sequencing sorry!
Within four years of age only
Which college have had these facility?
May be very few or no one
Hardly shows these beauty!
We're too grateful to our beloved
Health Minister cum Chief Minister;
Because without her kind effort

Our college couldn't be 'superstar'!

Last but not the least here

We're going to achieve 70 crore project MCH Hub;

Really it'll be crown of the state and country

Would be really in Medicine-cub!!
